He takes a great pride in being a native and stated that it has a great pleasure for him to visit the county of his nativity. He never meets an Adair county man but he is ready to grasp his hand. Mr. Rigney is a banker at Lancaster. He, too, was reared near Neatsville, this county, being a son of Maj. Ferdinand Rigney, who died many years ago. During his life time he was prominent in the affairs of the east end of Adair. Mr. Rigney is an inspector in the Chapter work of Masonry, and he was here to meet the R. A. M., look over the books, etc., and also to shake hands with many friends he knew in the long ago. His visit to Columbia was very much appreciated. ADAIR COUNTY NEWS \$1.00

News reaches relatives here that Mrs. Tyler Chandler, who was Miss Nettie Winfrey before her marriage, a resident of Hillsboro, Texas, is lying in a very critical condition. She is a victim of a cancer, and her affliction developed many months ago. She was born, reared and married in this place. Her parents were I. C. and Matilda Winfrey, who have been dead many years.

Daniel Banker Hunter, who has been a supernumary about Columbia for quite a number of years, has accepted a position with a Banker, of Lebanon, and left last week for his post of duty. He was the handy man at the First National Bank and The Adair County News, this place, for many months. In looks he is inviting and in taste fastidious, and is very much sought after by the girls of his race. The inducement that caused him to leave Columbia is not known to us, but we presume he is to receive quite an advance in salary. He is noticeably religious, member of the colored church choir, and sings beautifully. He is humble in his walk and was never known to use ugly language, and makes it a point to be on hand at mealtime, and if the victuals are dainty, he guarantees to sit at the festival board until he is well-filled.

Attention. Royal Arch Masons.

Columbia Chapter, No. 7, R. A. M., will confer the Royal Arch degree, on a team, Friday evening, beginning at 8 o'clock, July 27. All Royal Arch Masons, in good standing, are invited and are urged to be present. Rowena, Jamestown and Burkesville members and others who are living some distance from the Chapter, are especially requested to be present. If Campbellsville Chapter would send a delegation the visit would be appreciated, also visitors of Greensburg Chapter.

Notice to the Public.

I have gone to a great deal of expense to install a delco light plant, so as to give my patrons the very best service possible. Electric equipment throughout, with fans and engine, which enables me to do the work quicker, better and with more comfort. With the above equipment and by the use of Sommoform, (the safest general anesthetic known) for the extracting of teeth, puts me in position to say, I have one of the best equipped dental offices in Southern Kentucky. When in need of first-class work give me a call. All work guaranteed. All instruments electrically sterilized before use. H. W. Depp. 37-2t

A Quiet Marriage.

Last Tuesday evening, between 8 and 9 o'clock, at the home of the Misses Sinclair, this place, Miss Mary Susie Sinclair and Mr. W. R. Garrison were quietly married by Rev. S. G. Shelly, in the presence of relatives and a few intimate friends. The couple will reside in the Sinclair home, and the groom will engage in some kind of business. The bride is a sister of the late Frank Sinclair and of Mr. Ed Sinclair. The groom came to this county about one year ago, from Kansas, and has become fairly well acquainted, making a number of friends.

The Self Culture Club is taking steps to put curbing around the courthouse, grass and beautify the ground from the curbing to the foundation of the building. We believe that the move is a good one and that it should be encouraged. The club is progressive and is better satisfied when it is doing something to beautify Columbia.

Mr. G. W. Dillon, who was in town in a few days ago, reported that his son, Rich, who was operated on for appendicitis, had been getting along nicely since his return from Louisville, and that if he continues to improve, will be himself again in a short time. Rich has many friends about Columbia, all of whom will be glad to read this report.

Mr. R. B. Wilson, who lives near Campbellsville, and is a traveling salesman, got his right arm broken in this place, last Monday. He travels in an auto and in attempting to crank the machine the crank kicked with the result as above stated. As soon as the limb was dressed, Mr. Wilson left to make his appointments at various stores, going from here to Jamestown.

Mr. Walter Sullivan left for Louisville Tuesday morning to take a course in the Louisville conservatory of music. He is already a fine musician, but feels that it is good and refreshing to brighten up as he will be in charge of the band and orchestra in the Lindsey-Wilson Training School which opens September 1st. His entire time in the conservatory will be devoted to the violin.

Miss Mary McDowell, of Danville, has been appointed Emergency agent for Adair county and she will be here twice a month to give demonstrations in canning, preserving and evaporating fruits and vegetables. Her first visit will be Monday, July 23, and she will meet as many ladies as will come in the Parlor Circle Theater, over Nell & Son's store. Every lady in Adair county should become interested and attend the meeting. It is important to get the latest ideas in canning. Remember the date. Monday, July 23, over Nell & Son's store.

Died at Olga.

'Squire Erastus Antle, who was one of the best farmers, and a highly respected citizen, died on Saturday, the 7th inst., at Olga, Russell county. He was about sixty-five years old, and for many years was a consistent member of the United Brethren Church. The funeral services were conducted Sunday following, a large number of friends being present. He leaves a wife and five children, three daughters and two sons. He was a distant relative of Senator Robert Antle and was also the latter's father-in-law.

Prof. Pleas Wesley.

Mr. Wesley passed State examination in Casey county, he says—1916. He paid his poll tax in Adair—1916. I asked State superintendent's permission to take State examination in Russell Co. His answer—Sept., 10, 1915. "You are asking a permission to do a thing, that even if the Department should grant you, would if questioned, unvalidate your certificate, if you should receive one. I wish this privilege were legal, but is not, as the law is plain that that you must either take this examination in the county of your residence or at the State capitol."

V. O. Gilbert.

Now, shall the Republicans question Mr. Wesley's certificate on August 4th, or allow the Democrats to take the office away from him after he has been elected in November? George Aaron.

Clean Living with Sanitary Surroundings.

It is a remarkable fact that many of the physicians at the sanatoria of the Country have what are termed "arrested cases" of tuberculosis, preferring to call them that than cured cases, because the disease is liable to recur from the original causes, unless a rule of life is adopted that will prevent further trouble. These doctors know that vigilance is the price of health, as it is liberty, and avoid contaminating conditions, excesses, dissipation, and over exertion, while never neglecting to breathe all the fresh air possible, observe cleanliness of persons and surroundings and spend as much time in the open air as they can. Send to Dr. W. L. Heizer, Secretary of the Tuberculosis Commission, Frankfort, for pamphlet giving the rules that have been found by experience to prevent tuberculosis infection and the proper method of dealing with the disease after it develops

Married in Lincoln County.

Miss Mary Breeding, of this place, daughter of Mr. and Mrs. J. S. Breeding, who was on a visit to Lincoln county, was married last Monday week at McKinney, to Mr. P. R. C. Bridgewater, who is a son of Mr. Wilson Bridgewater, and who lives at New Market. It was a very quiet affair, the ceremony being performed by Eld. M. R. Gabbert, of the Christian Church.

The bride is quite popular with the younger set of this place, and her marriage was a great surprise.

The groom is a young business man of New Market, Ky. His father was born and reared at Cane Valley, Adair county.

The News extends its best wishes, trusting that only happiness will result from this union.

Death of a Former Resident.

Old friends in Columbia of Mrs. E. A. Suddarth, formerly of this place, but for the past many years of Fort Worth, Texas, will be grieved to learn of her death on Monday, July 2nd, at the home of her sister, Mrs. C. C. Leonard, 900 Florence street, Fort Worth.

Mrs. Suddarth was the widow of the late J. W. Suddarth, of Columbia, and a daughter of the late Jesse Murrell, of Fort Worth, head of a well-known Columbia family, who moved to Texas some thirty years ago, and with whom she made her home after leaving Kentucky. Surviving Mrs. Suddarth are four children, Evan W. Suddarth, Master Signal Electrician of the Mounted Service school, at Fort Riley, Kansas; Walter E. Suddarth, U. S. Postoffice Inspector, stationed at Chillicothe, Mo.; Mrs. Mary W. Davidson, of Denton, Texas, and John G. Suddarth, of Chicago, Ill. Four sisters and a brother, Mrs. C. C. Leonard, Mrs. Lou E. McDaniel, Misses Mary and Ellen Murrell and Luther Murrell, also survive Mrs. Suddarth. Another sister, Mrs. Rill Rogers, formerly well-known in Columbia, where she spent her young womanhood, died at Christmas time at the Fort Worth home of the family.

The deceased leaves a great many relatives in Adair county. She was an ardent member of the Methodist Church, and when in health was a regular attendant upon services.

Announcement.

To the Voters of Russell County:

I promise, if elected, to carry out the following plan for the benefit of the prisoners and taxpayers.

1. I shall dispense with the Deputy allowed the Jailor and do, or have all the work done, at my expense. This will save the Taxpayers \$1.00 per day. I shall at my own expense oversee the work of the prisoners on the public highways.

2. I promise to give one-tenth of my official income to the various churches in Russell county to be used by them in paying off the indebtedness on church property. In this each denomination (both white and colored) is to share alike in proportion to the amount of indebtedness against them. One representative from each denomination will be asked to help form a committee to assist in the fair and proper distribution of said fund. In case all such church indebtedness shall have been lifted the remaining portion of this fund is to be used on the public highways of Russell county.

3. Inasmuch as the county prison is designed to be a house of correction and reform in which all inmates should be given special inducement to proper reflection, and encouraged in every way to set firmer resolutions to live peaceable and law-abiding lives as citizens of the Commonwealth, it shall be my plan, if elected, to encourage such thought and resolution among the prisoners by supplying them, at my expense, with Bibles and Hymn-books and other religious and good secular literature, and in addition to this I propose to secure the services of some minister of the Gospel for at least one service on each Sabbath day.

The above will be incorporated in my official bond and will be as faithfully and fully carried out in every detail as any other requirement of said bond.

Obituary.

Alice Pearl Strange Froedge, daughter of Bro. and sister Houston Strange, born June 3rd, 1878. Was married to A. C. Froedge, Feb., 16th, 1899. To this union were born one child, Elsie May Froedge. Bro. and sister Froedge have made the little village of Breeding, Ky., their home for several years, where they have been in the mercantile business, and have won the love and friendship of many.

On June the 10th, 1917, their happy little home was saddened. To the surprise of both friends and relatives, when God in his loving way saw fit to send the Death Angel into the home and call the loving wife and darling mother away. She had been ill but a few days with measles, and was getting along nicely. She and her many friends were expecting that she would be up and about in a few days. On June the 9th she was suddenly seized by a dreadful case of pneumonia. Presently a state of unconsciousness was the result and she never revived any more. On the day following she passed away, in the presence of an aged father and mother and three brothers, two sisters, husband and daughter, other relatives and friends. She also has two brothers that could not be here. Sister Froedge professed faith in Christ many years ago, and since the year of 1900 has been a faithful member of the M. E. Church South, of Breeding, Ky. We can think of no one who had more friends than she. We were sorry to give her up. Realizing that a true companion, loving mother and a faithful member of the church had passed away. She was al-

**LIVER DIDN'T ACT
DIGESTION WAS BAD**

Says 65 year Old Kentucky Lady, Who Tells How She Was Relieved After a Few Doses of Black-Draught.

Meadersville, Ky.—Mrs. Cynthia Higginbotham, of this town, says: "At my age, which is 65, the liver does not act so well as when young. A few years ago, my stomach was all out of fix. I was constipated, my liver didn't act. My digestion was bad, and it took so little to upset me. My appetite was gone. I was very weak. I decided I would give Black-Draught a thorough trial as I knew it was highly recommended for this trouble. I began taking it. I felt better after a few doses. My appetite improved and I became stronger. My bowels acted naturally and the least trouble was soon righted with a few doses of Black-Draught."

Seventy years of successful use has made Thedford's Black-Draught a standard, household remedy. Every member, of every family, at times, need the help that Black-Draught can give in cleansing the system and relieving the troubles that come from constipation, indigestion, lazy liver, etc. You cannot keep well unless your stomach, liver and bowels are in good working order. Keep them that way. Try Black-Draught. It acts promptly, gently and in a natural way. If you feel sluggish, take a dose tonight. You will feel fresh tomorrow. Price 25c. a package—One cent a dose. All druggists. J. 69

Young Bride's First Discovery.

Their wedding tour had ended, and they entered their new home to settle down to what they hoped to be one long uninterrupted blissful honeymoon.

But alas! the young bride's troubles soon began, when she tried to reduce the cost of living with cheap "big can" baking powders.

She soon discovered that all she got was a lot for her money, and it was not all baking powder for the bulk of it was cheap materials, which had no leavening power. Such powders will not always give the desired results. And because of the absence of leavening gas, it requires from two or three times as much to raise cakes or biscuits as it does of Calumet Baking Powder.

Thus, eventually, the actual cost to you, of cheap baking powders, is more than Calumet would be.

Cheap baking powders often leave the bread bleached and acid, sometimes yellow and alkaline, and often unpalatable. They are not always of uniform strength and quality.

Now the bride buys Calumet—the perfectly wholesome baking powder, moderate in price, and always uniform and reliable. Calumet keeps in d e f i n i t e l y, makes cooking easy, and is certainly the most economical after all.

To Help Solve Transportation Problem.

The absolute necessity of building good roads even in these times of war, in order to meet the transportation situation, has been repeatedly emphasized by the Manufacturers Record. Whatever interests it may be necessary to let up on in war times, the country cannot afford to let up on the building of good roads and good streets. To do so would be as great a mistake as it would be to entirely discontinue all railroad expansion or the increase of cars and locomotives. The great pressing problem before the nation from the viewpoint of the producer and the consumer of foodstuffs and of manufactured products, and of the army and navy also, is that of transportation, or distribution.

Twenty years ago or more Senator Gorman, in discussing the future of the country, pointed out that distribution was the great problem before the Amer-

ican people. That problem has grown with increasing intensity until to day we are face to face with a complete railroad breakdown at a time when vastly increased transportation is a necessity. We have during the last five or six years constantly reiterated that the building of good roads and the use of motor truck and automobiles was the most important help left to supplement the breakdown of the railroad facilities of the country. Good roads construction with all possible energy is demanded in this time of war, for we shall need road transportation during the war period and for years afterwards far more acutely than we have needed it in the past.

Railroads of necessity are cutting out many passenger trains. They are unable to haul the freight that is being offered, and the whole business interests of the country are being congested and hampered by inadequate railroad facilities. This is true even now when we have scarcely begun to get ready for war. It will grow with more intensity as the magnitude of war operations increases. It can not be met in any way except by the building of good roads wherever this can be done, and the fullest utilization of automobiles and motor trucks, though water transportation also must be utilized wherever possible.

The automobile is not any longer a pleasure vehicle when looked at from this standpoint. It is a necessity, vital to the life of the country and to the maintenance of its business operations. Under present conditions it is impossible to increase our railroad facilities rapidly enough to overcome existing conditions, nor can we increase railroad building and railroad cars and locomotives in the next five or ten years rapidly enough to keep up with the demands of the times. We can, however, materially supplement railroad work and help to relieve the congestion by building good roads, solid and substantial enough to stand the heaviest traffic that can be put upon them, and by the fullest utilization of the automobile and the motor truck.

It becomes essentially important, therefore, that towns and counties and states shall fully recognize this situation and see to the building of good roads as rapidly as they can be built, with a full understanding of the fact that this is a war necessity and needed more to-day than in times of peace. The automobile and the motor truck must do practically all the short hauling of passengers and freight, enabling the railroads to a large extent to cut out short hauls on passenger and freight trains alike. More than that, however, the long hauls must be taken care of to some extent by the automobile and the motor truck, and this can not be done without good roads.

The Department of Commerce

has issued a bulletin setting forth the need for the use of our internal waterways to help to meet the railroad congestion. All that is said in that bulletin as to the importance of water transportation only serves to emphasize the importance of road transportation and use of motor truck. The seriousness of this transportation condition cannot be overstated, and it will grow more and more acute at the months go by.

This Bulletin of the Department of Commerce, referring to the radical measures being taken by the railroads to help meet the situation, reports that one road has already cancelled 200 passenger trains from its summer schedule, and that another has withdrawn 40 such trains and special trains for convention traffic are being refused. Yet even with the adoption of methods of this kind the facilities of the railroads are insufficient for the task laid upon them, and the outlook for the future seems certain to make problem even more serious than it is to-day. This bulletin quotes a railroad official as saying: "It will be absolutely necessary to use such transportation as there is for essential things. The public should give up nonessential."

Preserve What You Can.

Preserve as many products in your garden as you can, dry, evaporate, pickle or brine. By the drying method, all of the surplus water is driven off by placing the products on trays in the sun, over a stove, or before an electric fan. Dried fruits and vegetables can be kept in bags and boxes tight enough to exclude insects. Soaking in water will bring the products back to a large extent to their original state, and they may be cooked like fresh products.

There may be a shortage of cans and glass jars, but all kinds of receptacles can be utilized. Put fruit juices in ordinary bottles, sealing with a cork and paraffine. Preserved or jammed fruits or berries can be put in glasses, and sealed with paraffine, or in wide-necked bottles, if the cans and jars are not readily obtainable.

Dry such vegetables as sweet corn, snap and string beans, shelled beans, shell peas and the root crops. If you have plenty of cans or jars all of the above named vegetables can be canned.

Do not have an empty container in your home next fall. Do your part to prevent food waste.

Latest War News.

In the sensational campaign which the revolutionary army of Russia is waging in Galicia the capture of Halicz, important though it is, is only an incidental feature. Given secure possession of it the Russians have the road to Lemberg well opened up to them and a continuation of their attacks on anything like the scale of the last ten days seems likely to result in the fall of the Galician capital at no distant date.

Russian official statement reveals clearly that the Russians besides menacing Lemberg, also are carrying out a movement embodying serious threat to the Austro-German front running south through the Carpathians to the Moldavian mountain region.

The advance by the Russian armies on the Borghodchan-Zolotvin front represents a drive into the Carpathian foothills. Zolotvin (or Solotvina) is twenty-two miles southwest of Stanislau and the front of the advance mentioned, running northwest to Borghodchan, is twelve miles in length. Zolotvin is a bare twenty miles from the crest of the Carpathians along the Galician-Hungarian border. The available passes, however, lie chiefly some distance either west or south-east of this line.

Dolphus, Ernest and Jo Rodgers, of Roachville, were at the bedside of their mother when the end came.

We have received the announcement of Rev. J. R. Crawford, of Pleville, who will begin a series of revival services at Union church on the 24th. We are certainly glad to have Mr. Crawford with us as he is a very able divine.

Quite a number of the free schools have started in this part of the county and all the districts that we have heard from have started off with good attendance, and the patrons are all well pleased with the beginning of their teachers and it looks now, that we are going to have the best school we have had in many years.

Our old friend and neighbor, John Pickett, of Campbellsville, who has been in Uncle Sam's service for a number of years, and made good, was visiting his father and family, near this place, for a few days of last week, and called in to see us. We are always glad to see you, John, come

again.

Robert Wethington, Adair Spoke Co.'s agent, at this place, has been receiving some first-class spokes for the past week. The prospects are good for him to buy quite a lot here during the fall season, as our farmers are about through with their crops and will be ready for the timber business in a few days.

A letter from Kansas City, Mo., states that the last rain that fell there was May the 22nd, and was very light, and that the heat is terrible, and food prices are soaring higher each day. Potatoes 80 cents a peck, butter 45 to 50 cents per pound, meat 45 to 53 cents. We should all be thankful we live in good old Adair county.

Mr. Joe H. Todd, wife and little sons, Clarence and George Ralph, spent Saturday night and Sunday with his niece and family, Mrs. Dick Hutchinson.

Mrs. Charlie Browning and little son, Ray, visited her father one day last week.

Mr. Scott Todd was reported sick on Saturday. We hope to hear he has recovered.

Editor News:-

I'm taking the pleasure which time affords to send a few remarks to readers of The News. I am located twenty miles West of Bloomington, on the Lake Erie and W. R. Y. This is a fine agricultural section, but the crops of all kinds are late two weeks. Corn planting and hay harvest are just now in full blast. There is a great demand for farm hands in this part of Illinois and most farmers are paying good wages.

All kinds of farm products are bringing good prices here. Corn is selling at \$1.61 per bu., oats 60c. per bu., and flour \$7.00 per cwt. Oat crop will average 60 bushel per acre in this section.

The most of the people here are very sociable and considerate and seem to have an air of hospitality akin to that of the more southern States, but there is one thing I do not tolerate, as the people do up here, and that is negro equality. It is no common thing to see the whites and blacks associating together, just the same as if they were all of the same color.

A fierce race war broke out in East St. Louis, Ill., July 2nd, in which 300 negroes were killed outright. The negro residents were set on fire and negro were driven away. The Illinois State guard was called out and the situation is now fairly well in hand. I can say that I like the northern prairies very well but I believe that the sun shines brightest, the birds sing sweetest and the girls are the prettiest in Kentucky. As it is getting late and as I've already taken up quite a bit of space I had better close by saying that in the happy sometime in the sweet bye-and-bye when the evil days come not; perhaps in a place altogether unknown to me now, I'll write again. Yours as ever

An Adair county boy,
Albert Bryant.

Obituary.

On Thursday, June 21st, the death angel came and claimed for its victim our dear loving grandma, Sarah M. Burton, the wife of the deceased, Gideon Burton. She was 72 years old, and all that loving hands could do was done for her. It was hard for us to give her up. She was so good and kind to everybody. She will be greatly missed by all, but God knows best and his will be done not ours, and I

Take Notice:

If you do, your attention is called to the many monuments of Marble and Granite which I have placed in the Cemetery at Columbia and surrounding burying grounds, which will show you the beauty and durability of the material used in their construction, and attesting the care and neatness with which my work is done. Call on O. P. Bush, Columbia, Ky., and tell him what you want, and he will make you prices within easy reach of all. Give him your order and you will be sure to get the best on the market.

hope we can all be as ready and willing to go as she was, when the death message comes for us. She was a member of the Separate Baptist church. The day she died when we would ask her how she was feeling, she would smile and say there wasn't a pain about her. She leaves seven children and a large number of grandchildren, relatives and friends. The funeral services were conducted by Rev. Anderson and Rev. Moxley, and the remains laid to rest in the Bear-wallow cemetery to await the resurrection. A dear one gone but not forgotten. A granddaughter.

Destroy Filth and You Won't Have to Swat.

Until a few years ago, a so called philosopher was held up to children as a model of kindness to Gods creatures, because he is alleged to have carefully taken a fly and putting it out of the window said: "Go little fly, there is plenty of room for thee and me." This sounds pretty, but a fly is the last thing the old fellow should have selected to show his moderation. It is a menace to human health and animal welfare and carries disease and death in its wake, laden as it often is with Germs of typhoid, cholera, diarrhoea, dysentery, and tuberculosis. It breeds and feeds on garbage and filth and multiplying with unimaginable rapidity its power for harm is incalculable. The best plan to get rid of the pests is to remove and destroy every thing that the fly can breed in. Clean up your premises and keep them clean, and you won't have to exert yourself with a swatter, which is too slow a process of extermination. Help the State Board of Health and the Tuberculosis Commission destroy one of the chief spreaders of disease germs, which exact their toll in human life, by keeping your premises absolutely clean.
